Subject: RE: Centreville

FYI: IDA checked around and doesn't have anything. Sorry. I hope your call with IEPA went well and that the other resources we talked about have promise.

Subject: Centreville

"February newspaper [article](#) about the low-income African-American community of Centreville which has persistent failures of its sewage infrastructure—leading to backups in residents' homes and yards. This is a health threat that may be worsened if it turns out that COVID-19 may spread through raw sewage. Current flood season only exacerbates these concerns."
